Total Market for Residential-Type Window Units by Application 2017 and 2019
- Residential New Construction
- Residential Remodel
- Residential Replacement
- Manufactured Housing
- Non-residential New Construction
- Non-residential Remodel
- Non-residential Replacement

D.2 Table

Total U.S. Market for Residential-Type Window Units by Application and Framing Material 2017 and 2019
- Residential, Non-residential and Manufactured Housing Window Units
- Wood and Clad Wood
- Vinyl
- Aluminum
- Other

D.3 Bar Graph

Total U.S. Conventional Residential Window Demand Historic and Forecasted Window Usage by Framing Material 2013 – 2022F
- Wood and Clad Wood
- Aluminum
- Vinyl
- Other

D.4 Table

U.S. Conventional Residential Window Usage by Framing Material Segmented by Construction Type 2017 and 2019
- New, Remodel, and Replacement
- Wood and Clad Wood
- Vinyl
- Aluminum
- Other

D.5 Table

Conventional Residential Window Usage Segmented by Framing Material 2017 and 2019
- Wood
- Aluminum Clad Wood
- Vinyl Clad Wood
- Aluminum with Thermal Break
- Aluminum without Thermal Break
- Vinyl
- Other
D.6 Table

Conventional Residential Window Usage
Segmented by Configuration
2017 and 2019

- Wood, Vinyl, Aluminum, and Other
- Double Hung
- Single Hung
- Casement
- Gliding/Slider
- Awning
- Fixed
- Specialty

D.7 Pie Chart

Conventional Residential Window Volumes
Segmented by Customization
2017 and 2019

- Standard Stock Windows
- Customized Windows

D.8 Table

Conventional Residential Window Glass Usage
Segmented by Framing Material
2017 and 2019

- Single Lite, Two Lite Sealed IG, Other
- Wood
- Vinyl
- Aluminum
- Other

D.9 Pie Chart

Conventional Residential Windows – Insulating Glass
Segmented by Type of Spacer
2017 and 2019

- Rigid Warm Edge
- Non-Rigid Warm Edge
- Aluminum Spacer

D.10 Pie Chart

Conventional Residential Windows – Hurricane Resistant
Florida, All Other Regions
2017 and 2019

- Non-Hurricane
- Hurricane Impact Glazing
- Hurricane Non-Impact Glazing

D.11 Table

Conventional Residential Windows
Segmented by Glass Type
2017 and 2019

- Wood, Vinyl, Aluminum, and Other
- Clear
- Tinted/Reflective
- Low-E
D.12 Table

Conventional Residential Windows – Energy Ratings
Segmented by Rating Type
2017 and 2019
- Wood, Vinyl, Aluminum/Other
- NFRC Rating
- NFRC and ENERGY STAR Rating
- No Rating

D.13 Table

Conventional Residential Wood Window Units
Segmented by Configuration
2017 and 2019
- Double Hung
- Single Hung
- Casement
- Gliding/Slides
- Awning
- Fixed
- Specialty

D.14 Table

Conventional Residential Wood Window Units – Window Sash and Frame Segmented by Wood Species Used
2017 and 2019
- Ponderosa Pine
- All Other

D.15 Pie Chart

Conventional Residential Wood Window Units – Non-Clad Segmented by Exterior Finish
2017 and 2019
- Primed/Prefinished
- Natural
- No Finish

D.16 Pie Chart

Conventional Residential Wood Window Units Segmented by Type of Insulating Spacer
2017 and 2019
- Rigid Warm Edge Spacer
- Non-rigid Warm Edge
- Aluminum Spacer

D.17 Table

Conventional Residential Vinyl Window Units
Segmented by Configuration
2017 and 2019
- Double Hung
- Single Hung
- Casement
- Gliding/Slider
- Awning
- Fixed
- Specialty

D.18 Pie Chart

Conventional Residential Vinyl Window Units Segmented by Type of Insulating Spacer
2017 and 2019
- Rigid Warm Edge Spacer
- Non-Rigid Warm Edge
- Aluminum Spacer
D.19 Pie Chart  Residential Vinyl Window Units  
Segmented by Fabrication Method  
2017 and 2019  
- Fully Welded Frame  
- Mechanically Fastened Frame  
- Hybrid of Mechanically Fastened Frame and Fully Welded Frame  

D.20 Table  Conventional Residential Vinyl Window Units  
Segmented by Solid Extrusion Color  
2017 and 2019  
- White  
- Beige/Tan/Almond  
- Brown  
- Black  
- Other  

D.21 Table  Conventional Residential Vinyl Window Units  
Segmented by Color Application Type  
2019  
- Solid Color  
- Co-extruded  
- Pained  
- Laminated  

D.22 Table  Conventional Residential Aluminum Window Units  
Segmented by Configuration  
2017 and 2019  
- Double Hung  
- Single Hung  
- Casement  
- Gliding/Slider  
- Awning  
- Fixed  
- Specialty  

D.23 Pie Chart  Conventional Aluminum Window Units  
Segmented by Type of Framing  
2017 and 2019  
- Thermally Broken  
- Non-thermally Broken  

D.24 Table  Residential Aluminum Window Units  
Segmented by Finish Type  
2019  
- Anodized  
- Standard Paint  

D.25 Pie Chart  Residential Aluminum Window Units  
Segmented by Painted Color  
2019  
- Brown/Bronze/Earth Tones  
- White/Off-white

Introduction

Market estimates in the *U.S. Industry Statistical Review and Forecast* are driven not only by statistics published by the Census Bureau and other construction statistics organizations, but also from primary interviews with leading manufacturers of windows, doors and skylights, as well as component suppliers. All forecasts are based on projections of construction activity as of mid-May 2020 and appropriate usage factors and tabulations developed by DuckerFrontier, which is solely responsible for the data. Any questions on the Review or its contents should be directed to DuckerFrontier. Please note that totals may not equal the sums of individual values due to rounding.

Ducker has been conducting residential and non-residential market studies continuously since 1982 for the American Architectural Manufacturers Association (AAMA). In 2019, the boards of AAMA and the Insulating Glass Manufacturers Alliance (IGMA) voted to unify into one organization, the Fenestration and Glazing Industry Alliance, or FGIA. FGIA became the official trade association for both industries on January 1, 2020.

All reports are available from FGIA.
